

JIC-NDT Training Center meeting with Inspection Department, Aramco for establishment of AS & BS Academic Programs

“JIC-NDT Training Center has held a meeting with Inspection Department, Aramco, on October 10, 2011. The theme of the agenda was to present the expansion plan for the NDT Center, and in particular the establishment of Academic Programs, AS and BS, in Welding and Inspection Technology. JIC-NDT Center looks for local industry collaboration, (Inspection Department, Aramco), in selecting and modifying an already running Academic Program in USA or Canada. To be successful in this project JIC-NDT Center is considering full affiliation with American/Canadian Technical Institute with ABIT Accreditation.”
